| 9. _____ | 10. _____ | 11. _____ | 12. _____ |

Notes for Combined Honours: Please check if your other honours major program recognizes any Philosophy courses in fulfillment of requirements. If so, these can be “double counted” towards your Philosophy program’s needs and those of your other major. This does not reduce the overall number of credits needed for your honours BA (20.0 credits), but may increase the number of non-major electives you may take.

Please also note, if you take a course in Philosophy and its equivalent in your other program, you will be charged with a repeat, meaning only the second grade counts, and you will not receive a credit for the first course completed. To avoid this, pay attention to any exclusions listed for a given course.
